**PRODUCT GUIDE**  
EDITION 4

## WELCOME TO THE HERTINGS PRODUCT GUIDE, EDITION 4

The guide is separated into a series of clear, easy to follow, colour coded sections – which relate to the Product Categories you may be interested in.

Our Sales Team are always available to help with your requirements, or you can visit our web site at [www.hertings.com](http://www.hertings.com) if you can't find what you're looking for please do not hesitate to contact us. We have included all of our most popular lines to keep the guide relevant and concise. As our range is so large, it would be impossible to include updated information about every item that we stock and supply.

## WHY HERTINGS?

### Finalist for Service provider in the Housebuilder of the year awards - Trading for over 60 years

With our purpose built facility in Southall, Middlesex and three satellite branches in Leeds, Warrington and Birmingham and approx. 100,000 square feet of warehousing capacity, we aim to maintain stock levels of all everyday items needed by our customers – from the largest national contractor to the smallest sub-contractor.

We aim to deliver all orders received before 5:30pm to site, office or yard by the next working day, with NO minimum order value or quantity requirements, **FREE OF CHARGE** to anywhere across mainland UK (including the delivery of Hardware and Architectural Ironmongery in "Plot Lots").

As part of our commitment to providing excellence in both goods and service, Hertings own their dedicated fleet of vehicles, drivers are employed directly, delivery staff are fully conversant with our products and our Sales Team follow an on-going technical training programme.

Working closely with our Supply Chain Partners, we can also arrange for more specialised technical back-up, including on-site training and product demonstrations.

## OUR SALES TEAM

Our Sales Office operates between 8am and 5:30pm, Monday to Friday, excluding Bank Holidays.

We aim to deliver all orders received during these times **NEXT WORKING DAY**.

There are NO minimum order requirements and delivery is **FREE OF CHARGE**.

A close-up photograph of a large pile of silver-colored screws. The screws are densely packed and oriented in various directions, creating a complex, textured pattern. A white hexagonal grid is overlaid on the image, with the lines of the grid intersecting the threads of the screws. The lighting is dramatic, with strong highlights on the metallic surfaces and deep shadows in the recesses of the threads and between the screws. The overall tone is industrial and precise.

## EVERBUILD

### 115 GP BUILDING MASTIC

115 GP Building Mastic is a traditional oil based pointing mastic that provides an effective waterproof seal. Typically used to seal composite sectional panels and low movement vertical building joints.

PRODUCT IMAGE	CODE	SIZE	COLOUR	QUANTITY
	22.115.002	C3	WHITE	25
	22.115.004	C3	BROWN	25
	22.115.006	C3	STONE	25

### 125 ONE HOUR CAULK

125 One Hour Caulk is a fast drying flexible decorators filler and sealant that remains permanently flexible. Can be overpainted with most paint types or covered over with wallpaper; no sanding down required.

PRODUCT IMAGE	CODE	SIZE	COLOUR	QUANTITY
	22.125.002	C3	WHITE	25
	22.125.004	C3	BROWN	25
	22.125.006	C3	MAGNOLIA	25

### 175 PREMIUM UNIVERSAL ACRYLIC SEALANT

Everflex Premium 175 Universal Acrylic Sealant is a high quality acrylic sealant that provides a long lasting, permanently flexible seal in a wide variety of applications. Adheres to virtually all substrates. Ideal for internal and external sealing around timber and metal window and door frames. Also for internal sealing around PVCu window, door frames, baths and basins, sealing cracks and gaps in brickwork, stone and concrete, and as an adhesive for bonding polystyrene coving and tiles.

EVERBUILD

GENERAL PURPOSE SILICONE

A mid modulus silicone sealant that adheres to most smooth and non-porous materials. Contains an anti-fungal compound to prevent mould growth in areas of high humidity. Forms a permanently flexible rubber seal.

PRODUCT IMAGE	CODE	SIZE	COLOUR	QUANTITY
	22.012.002	280ml	WHITE	25
	22.012.004	280ml	CLEAR	25
	22.012.006	280ml	BROWN	25
	22.012.008	280ml	BLACK	25

TIMBER & LAMINATE SEALANT

ColourMatch Timber & Laminate Sealant is a polymer rich, permanently flexible sealant and gap filler designed for sealing around laminate flooring, fitted furniture and kitchen worktops. Formulated using high clarity lightfast colour pigments, offers a near or exact match to many popular laminate floors and melamine board finishes. Timber & Laminate Sealant is silicone and solvent free, however, unlike conventional matt finish water-based sealants, it leaves a satin finish which will not pick up dirt and can be easily cleaned with normal household cleaners. If desired the product can be painted, varnished or woodstained. The crystal clear colour is particularly suitable for overcoating with woodstain, as the finish achieved will reflect the actual finish that is obtained on the surrounding timber.

# Fire Foams

## Nullfire FF197 - 40.157.015

- Tested to BS EN 1634-1 (fire door) FD60 performance achieved
- Gaps up to 35mm (fire door)
- Tested without architrave (fire door)
- Tested to BS EN 1366-4 (linear gaps) up to 4 hours fire resistance
- Pink coloured for easy identification
- Tack free in 10 minutes

## Everbuild B1 Foam - 20.019.023

- Fire rated up to 4 hours in certain joint configurations
- Quick setting – once cured the foam can be cut, sawn or plastered over after only one hour
- Fills irregular and broad gaps where most conventional fillers would fail
- Possesses insulating and sound deadening properties
- Slows down the passage of flames and smoke
- Meets the stringent requirements of DIN 4102 Part 1 for Construction Materials, Class B1 and BS 476 Part 20

## FD60 Foam - 40.157.010

- Fire & Acoustic Seals 'Fire Door' Foam
- Tested to:
  - BS EN 476: Part 20 & 22: 1987
  - BS EN 1634-1: 2014
  - BS EN 1366-4: 2008
  - BS EN 1634-3: 2004 (smoke control test)
- Certifire Approved CF5839

## Blue60 Foam - 40.157.005

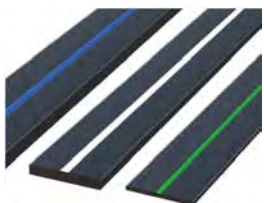

- 30 & 60 minute fire tested to BS EN 1634-1 and BS 476 Part 22
- Test in full size single & double doorsets, not linear gaps
- No additional mastics or sealants required
- Acoustically tested to full doorset up to 43dB
- Tested in both metal and timber stud partitionings
- Tested with softwood, MDF & hardwood frame sections
- Tested with gaps between 7mm & 30mm
- Tested in a retro-fit scenario to allow use for rectification
- Blue in colour for identification purposes Fire rated packers must be used in conjunction with foam
- 1mm, 3mm & 5mm colour co-ordinated fire rated packers

## Fischer 43712 - 80.900.004

- Hardly flammable, one-component polyurethane foam.
- The foam hardens as a reaction to atmospheric humidity.
- Hardly flammable B1 as per DIN 4102 Part 1
- Warrington Fire Research tested to BS476 Part 20
- Up to 4 hours fire rating

# Accessories

## Blue 60 Packers

- 64.106.301 – 1mm
- 64.106.303 – 3mm
- 64.106.305 – 5mm

- Square and Radius available from stock in pack of 6
- 50.070.190
- 50.070.205

## Metal Foam Gun

80.999.004

## Fischer Foam Cleaner

80.905.002

# Intumescent Mastics

## Nullifire FS702 - 40.157.030

- FS702 is suitable for a variety of applications:
- Static & movement linear joints (masonry/flexible wall to masonry/rigid wall/rigid floor/flexible wall)
- Window & door joints (masonry to timber/steel)
- FB750 to flexible wall/rigid wall/rigid floor
- Cold smoke seal
- Service penetrations sealing: copper & steel pipes, cable bundles / trays / ladders (with and without FIO25 Intuflex Insulation Wrap)
- FS702 is also suitable for service movement joints (consult Technical Services).
- Up to 4 hours fire resistance – Tested to EN 1366-4, EN 1366-3 & BS 476 pt 20/22
- Acoustics up to 55 dB
- Air Seal up to 2,000 Pa

## Everbuild Firemate - 22.300.102

- Everflex Fire Mate Intumescent Sealant is an acrylic sealant that swells when exposed to temperatures in excess of 125°C to prevent the passage of fire and smoke and has a fire rating of up to 4 hours in certain joint configurations.
- Fire rated to EN1366-4 (2006). Acoustic rates to BS EN ISO 140/3
- Tested for air permeability to EN13141-1
- Swells more than 150% of its original size when exposed to heat
- No priming required for most construction substrates
- Permanently flexible
- Excellent acoustic properties
- Easy to apply and tool off
- Fast cure – tack free in 15 minutes & Overpaintable

## FD60 Fire & Acoustic Seals Intumescent Mastic - 40.157.025

- Fire & Acoustic Seals' Intumescent Acrylic Sealant swells when exposed to temperatures in excess of 125°C to prevent the passage of fire and smoke and has a fire rating of up to 4 hours in certain joint configurations.
- Certifire approved CF5840
- Fire rated to BS476 Part 20/22: 1987 and EN1366-4 (2006). Tested to FD120
- Acoustic rated to BS EN ISO 140/3. Tested for air permeability to EN13141-1.
- Air Seal up to 2,000 Pa

## Pyrocooustic Sealant - 40.157.020

- EN 1366-3
- EN 1366-4
- EN 1366-4 +A1 2010
- EN 13501-1
- EN 13501-2
- EN 1026
- ASTM-E 1966 UL 2079
- ASTM D2369-10
- LEED 2009-EQ041 SCAQM
- DUL US & UL C Listed
- BREEAM International Approved
- UAE Certificate of Compliance

## Everbuild 300 Fire Sealant - 22.300.012

- Everbuild Tecnic Fire Sealant 300 is an intumescent and acoustic acrylic sealant that swells when exposed to temperatures in excess of 150°C to prevent the passage of fire and smoke.
- Fire rated up to 5 hours
- Halogen free
- Non slump – easy to apply and tool off
- Tack free in 15 minutes
- Over paintable
- Swells greater than 3x its original size when exposed to heat
- No priming required for most construction substrates
- Joint movement capability of +/- 12.5%
- For use in joints up to 50mm wide
- Excellent acoustic properties for sound deadening – average noise reduction of 29dB
- Tested in accordance with BS EN 1366-4:2006
- Tested for air permeability to EN13141-1 Ventilation for buildings
- CE marked under ETAG Part 3 ETA13/1058

## Fischer 53011 - 80.908.002

- Fischer FiAM is a one part water based acrylic emulsion that can provide up to 5 hours fire resistance when used in construction joints and services in both vertical and horizontal applications. When exposed to fire, it reacts to form a highly insulative char that slows down heat transfer, and provides a barrier to fire seal.
- Tested to BS EN1366-3 & 4, UL 2079 and BS476-20 the FiAM is also ETA approved and CE Marked. Formulated to be halogen and solvent free the FiAM exhibits excellent slump characteristics and has been designed to maintain the sound reduction index of a structure.
- Suitable compatibility in a variety of materials, such as timber, steel, concrete, drywall and brick/block work, and is utilised within the Fischer FCPS Coated Panel System, which is design to seal large openings in fire rated floors & walls

EVOSTICK

STICKS LIKE SH\*T

A high performance, one component, moisture curing adhesive that offers excellent initial grab and a high strength bond. It will bond most surfaces, even if both are impervious, and can be applied to damp or wet surfaces. Suitable for interior and exterior use. When fully cured, may be over painted with most types of paint.

PRODUCT IMAGE	CODE	SIZE	COLOUR	QUANTITY
	20.021.012	290ml	WHITE	12

GUNNABLE ADHESIVE

Suitable for a wide range of bonding applications such as; window sill installations, bonding plastic or wooden skirtings, panel boards and battens to internal walls; fixing carpet gripper strips, stair nosings and also acoustic tile applications; it may also be used for bonding aluminium skin panels to caravan framework.

PRODUCT IMAGE	CODE	SIZE	COLOUR	QUANTITY
	20.021.022	C30	-	24

GRIPFILL

A one part gap filling adhesive, Gripfill has been developed to give exceptional bond strength and adhesion to most solid building materials. It bonds both porous and non absorbent materials and cures quickly. It is flexible enough to be cut to shape following the initial curing stage and is compatible with silicone sealants for a decorative or water tight finish.

## SOUDAL

### PRO 40P - PU WOOD ADHESIVE - 30 MINUTE WATER RESISTANT TIMBER ADHESIVE

Professional quality, high strength and fast drying, PU liquid timber adhesive. Excellent water resistance: D4 (DIN EN 204). Easy application. Foaming penetration action to fill uneven surfaces. Can be used on damp/humid wood surfaces. 15 minute open time.

PRODUCT IMAGE	CODE	SIZE	COLOUR	QUANTITY
	20.060.040	750g	BROWN	6

### PRO 45P - FAST PU WOOD ADHESIVE - 5 MINUTE, FAST DRYING & WATER RESISTANT

Professional quality, high strength and ultra fast curing, PU liquid timber adhesive. Excellent water resistance: D4 (DIN EN 204). Easy application. Foaming action to fill uneven surfaces. Can be used on damp/humid wooden surfaces. 5 minute open time.

PRODUCT IMAGE	CODE	SIZE	COLOUR	QUANTITY
	20.060.045	750g	BROWN	6

### 30 MINUTE - PU BASED CONSTRUCTION ADHESIVE

Ultra high strength and rapid curing, PU based ultra construction adhesive for transparent and water resistant (D4 to EN 204) bonding. Superior strength build-up speed. Suitable for extreme duty wood bonding and other common building materials.

PRODUCT IMAGE	CODE	SIZE	COLOUR	QUANTITY
	20.060.100	310ml	BROWN	15

### 5 MINUTE - PU BASED CONSTRUCTION ADHESIVE

Ultra high strength and rapid curing, PU based ultra construction adhesive for transparent and water resistant (D4 to EN 204) bonding. Superior strength build-up speed. Suitable for extreme duty wood bonding and other common building materials.

## JOIST HANGERS

The BAT SPH Joist Hanger is a single piece, nonweld timber to masonry hanger that complies with BS 6178: Part 1: 1990. It has a wider masonry flange to increase loadings on masonry of compressive strength 2.8N/mm<sup>2</sup> and greater. The hanger is manufactured from 2.5mm thick pre-galvanised mild steel to BS EN 10142: 1991, DX51D + Z600.

The load bearing surface is 75mm and all hangers 150mm deep and over are manufactured 10mm less to allow for notching and regularisation of timber joists. A minimum height of 675mm of set masonry must be in position above the supporting flange before any load is applied. The hanger is fixed to the joist through the nail holes in each side gusset with 30mm x 3.75mm sherardised square twisted nails.

The standard type is S, Type R has a return, or hookover plate added, fixed by riveting, Type ST, or straddle, is two hangers joined together by a plate, fixed by riveting. Type R and ST provide additional location and alignment during construction. Hangers to suit I joists and extra wide sizes, Type M and Type MR, (150mm – 225mm) are available to special order.

**Our purpose built, 80,000 square foot warehouse allows us to stock all popular items used by our customers**

## Terms & Conditions

1. **Application:** Unless otherwise agreed in writing between the Company and its' Customer, the following terms and conditions of sale shall apply to all sales of goods by the Company to its' Customer.
2. **Price Variation:** Price applicable to the sales of goods by the Company to the Customer shall be the price ruling at the date of order. The Company therefore reserves the right to amend prices quoted prior to an order being placed, unless the order is covered by a written quotation/ agreement and the order date falls within the terms of this written quotation/agreement.
3. **Dispatch:** Dispatch dates are quoted without engagement, although every effort will be made to adhere to the date or dates quoted. In no circumstances shall the Company be liable for any loss arising from delay in dispatch, however caused.
4. **Damage:** The Company accepts no liability for any damage to goods delivered, unless notified to the Company within 48 hours of delivery.
5. **Misuse:** In the event of goods being incorrectly ordered or delivered, the Company accepts no liability for damage caused by the misuse of said goods.
6. **Claims:** Subject to the provision of condition 4, all claims for goods alleged to be defective must be made in writing to the Company within 7 days after the date of delivery. When notification is so received, the Company may require return of the goods or for the goods to be made available for inspection by the Company. Should the Company be satisfied as to the defects, then it retains the option to either replace the defective goods within a reasonable time or credit to the Customer within the contract price. All defective goods so returned shall be the property of the Company. Except as provided above, the Company shall have no liability whatsoever arising out of any agreement to sell or sale of goods including claims for direct, consequential or other loss, damage or expense, whether arising or alleged to arise under any warranty statement, conditional term expressed or implied, statutory or otherwise, or in negligence or alleged negligence on the part of the Company or otherwise. In no circumstances shall the Company be liable for loss or damage in excess of the contract sale price.
7. **Passing of Property:** Each of the following sub-clauses are separate and severable and shall be enforceable accordingly:
  - 7.1 Notwithstanding delivery, all goods supplied by the Company will remain the Company's absolute property until the Customer pays in full for them and for all other goods previously supplied by the Company;
  - 7.2 The Customer will store the goods in such a way that they are readily identifiable as the Company's property;
  - 7.3 Upon any use of the goods, either alone or with other items, all rights will remain with the Company;

### ORDER ONLINE OR CONTACT:

tel: **020 8606 7000**

[www.hertings.com](http://www.hertings.com)

154 fax: **020 8606 7010**

[sales@hertings.com](mailto:sales@hertings.com)

- 7.4 The Company shall be entitled, immediately after giving notice of our intention to repossess, to enter upon any premises with such transport as may be necessary and repossess any goods to which the Company has title under this clause;
- 7.5 If the Customer incorporates the goods supplied by the Company into other products with or without materials the Customer already possesses or which are supplied by third parties, the property in such other product will pass to the Company and the Customer shall store them without charge on our behalf as bailee;
- 7.6 The Customer shall not be entitled to pledge or in any way charge by way of security any of the goods which remain property of the Company, but in the event that that the Customer does so, all monies owing by the Customer to the Company shall, without prejudice to any other right or remedy available to the Company forthwith, become due and payable.
8. **Payment:** For the purpose of this clause, the due date shall mean the due date specified on the face of the Company's invoice. If the Customer does not comply punctually with these terms of payment, the Company reserves the right to charge the Customer interest on any amount overdue at the rate of 1% per month from the invoice due date to the date of receipt of the monies outstanding, and without notice to suspend further deliveries of goods until all arrears (including interest) have been paid. Where a settlement discount is shown on the face of the Company's invoice, the Customer may deduct this from their payment, provided that payment in full (less this discount) is made by the invoice due date.
9. **Interpretation:** Any agreement between the Company and the Customer shall be subject to and governed by the domestic law of England.
